

VIRTUAL SUPERVISOR ERGONOMICS TRAINING

VIRTUAL TRAINING

Supervisors will participate in a public training session with a cohort of Supervisors from other Public Works departments across Ontario to learn how to:

- ▶ Identify Musculoskeletal Disorder (MSD) hazards
- ▶ Conduct workplace/worksites inspections
- ▶ Complete accident investigations for MSD injuries
- ▶ Generate engineering and administrative solutions for identified hazards to effect ergonomic change

INTERACTIVE SESSIONS

Participants will engage with the content and network with their Municipal colleagues by participating in a diverse set of learning opportunities including:

- ▶ Small and large group brainstorming and discussions
- ▶ Video and picture-based hazard identification activities
- ▶ Interactive surveys for increased engagement and application of the content
- ▶ In-depth review of the hazards and control opportunities for one Public Works task, as selected by the participant

DELIVERY FORMAT

Each cohort of Supervisors will participate in 2, 2-hour sessions:

- ▶ Day 1: MSD Hazard Identification and Workplace Inspections
- ▶ Day 2: Accident Investigation and Controlling Hazards
- ▶ Maximum of 20 Public Works Supervisors per session*
- ▶ Audio and video capabilities are recommended for all Supervisors to fully engage with the training, network with their peers and complete interactive activities

**Sessions must have a minimum of 10 participants*

\$165.00/person
